# CROWN SPA HOTEL AFTERNOON TEA TALES

## THE ORIGINS

British Afternoon Tea originated in 1840 when Anna the Seventh, Duchess of Bedford, experienced what she called a 'sinking feeling' in the middle of the afternoon due to a long gap between light luncheon and her evening meal. To relieve her hunger pangs she asked her maid to bring her a pot of tea and a little light refreshment. She enjoyed this ritual so much she began to invite her friends over for tea and gossip about the latest scandals. Soon all of London was indulging in afternoon tea, as you can too! Follow in the Duchess of Bedford's footsteps and indulge your sense of fantasy with our Afternoon Tea choices.

The background is a detailed, repeating pattern of tropical flora and fauna. It features various types of green leaves, including long, feathery palm fronds and smaller, pointed leaves. Interspersed among the foliage are several species of flowers: bright orange-red tubular flowers, delicate purple and pink blossoms, and a large, intricate purple passionflower. Two vibrant hummingbirds with iridescent green and red plumage are perched on thin branches, one near the top right and another near the bottom left. A central white rectangular box with a dotted border contains the main text.
